624 blessing the gardens before firing, the seeds before sowing, and the first fruits of a number of crops. He must organise the payment of tribute and labour to the district chief and pass on chiefly orders and requests. His privileges include the right to personal service from younger relatives and tribute of beer and/or meat. Primarily, however, the position is valued not for economic advantage but for the authority it brings, the command over a small following and the favour of a chief. The sanctions for this authority consist mainly in the headman's popularity, the strength of kinship ties between him and the villagers and their belief that it is dangerous to allow an elder relative to die while cherishing a sense of injury. Ultimately, of course, the headman's power depends on the support of his territorial chief and nowadays of the British Administration.

621 The functions of the different types of Bemba chief differ only in de-
622 gree from those of the headman. Like a headman, a chief is in charge of his own village, his *musumba*, and he tries to maintain and augment this community by acquiring a reputation for popularity and generosity. A chief's village in the old days was described as having thousands of inhabitants. Big chiefs' villages observed by Richards in 1934 had 400 to 600 huts. They were divided into quarters (*fitenta*) ruled over by loyal supporters of the chief, known as *bafilolo*.

622 Besides administering his own village the chief was responsible for mak-
[692] ing and confirming the appointment of headmen; and presiding over a court composed of advisers mainly drawn from his own village. Witchcraft cases
[681] had to be brought to a chief and only the more important among them could administer the poison ordeal by *mwafi*. The chief could in the old days punish by savage mutilations and by selling a man into slavery. Economically the chief was responsible for initiating agricultural activities by performing the necessary rite at the time of tree-cutting, sowing or harvesting. With the tribute labour at his disposal he made big gardens and built gran-
[721] aries from which he fed his courtiers, messengers and workers. The chief initiated military raids and other forms of warfare, and the great Bemba chiefs maintained their monopoly of Arab guns which they traded for slaves. Bemba country was, in fact, an area of strong centralised government. The chieftains of the Aushi, Unga and other associated tribelets were on a much smaller scale and weaker in political organisation.

[789] But the most important and characteristic activities of the Bemba chiefs are ritual. They are reckoned to have in their own persons power to bless and curse. They have to be protected from contact with death and to keep
[763] sex taboos of various kinds for the welfare of the whole territory. It is probable that the Bemba Paramount Chief in the old days might have been described as a "divine king" in Frazer's sense of the word; he was strangled
[769] when on the point of death so that his spirit should pass into the land. The Bemba chief derives his ritual power from the fact that he has succeeded to the names of dead chiefs and is thus enabled to call on a long line of ancestral spirits. Chiefs possess sacred relics - usually stools - which are
622 known as *babenye* and kept in special huts protected by "wives of the dead"
778 or descendants of wives of earlier chiefs. An approach to the ancestral spirits is made at these shrines. Chiefs also sacrifice at the deserted shrines of their predecessors (*nfuba*) and at other spirit centres in the area.

Much of their power depends on the keeping of sex taboos and the

in prayer. When a man or woman dies, his or her social personality must be immediately perpetuated by a successor who passes through a special ritual (*ukupyanika*) and thus acquires the name, the symbols of succession (a bow for a man and a girdle for the woman), and the *umupashi* of the dead man. By this social identification, a man assumes the latter's position in the kinship-group, uses the same kinship terms and, in the case of a chief, it is almost impossible to tell when a man is describing incidents which took place in his own life or those of an ancestor two or three generations dead. So important is this social perpetuation of the dead considered that immediately after a death, before the successor has finally been appointed, a small boy or girl, usually a maternal grandchild, is chosen to inherit the name of the deceased temporarily (*ukunwa menshi*, 'to drink the water'). He or she is given some small piece of the latter's property and thereafter addressed as grandfather or grandmother, or whatever the right kinship term may be.

In the same way, a chief, once he has succeeded to the name, the spirit, and the sacred relics of his predecessor, has magic influence over the productive capacity of his whole territory. His ill health or death, his pleasure or displeasure, his blessings or curses, can affect the prosperity of the people, and even his sex life reacts on the state of the community.[1] For a chief to break a sex taboo is an act which may cause calamity to the whole people, and the rites by which he is purified after sexual contacts form one of the most important elements in the politico-religious ceremonial requiring the participation of thirty or forty hereditary officials (*bakabilo*) in the case of the paramount. Conversely, legitimate sex intercourse, especially as prescribed on certain ritual occasions, may actually be a health-giving influence. Any headman has a certain degree of supernatural influence in his own village as the successor to his predecessor's *umupashi*, but a chief has considerably more. For all these reasons, ritual precautions guard the sacred person of a chief. Special taboos must be kept to preserve the ritual purity of the ruler's sacred fire, and his sacred

[1] There are rumours that chiefs were throttled by their hereditary councillors when they were obviously sick unto death, for fear they took 'the land' into the grave with them. This information was sent me by Mr. T. Fox-Pitt after I had left the country and was afterwards checked by Mr. Godfrey Wilson. In fact it is probable that in the old days the Bemba chiefs would fall under Frazer's definition of a 'divine king'.
